WELCOME

A Message from Spiro Cheriogotis
Mayor of the City of Mobile, Alabama

Dear Mobilians,

As we turn the page from the Holiday season, the winter months offer a natural moment to reflect, recharge, and look ahead. For many of us, the promise of a new year sparks a renewed drive to get out, get active, and reconnect with friends and neighbors. If you're looking for new places to explore or new ways to stay engaged in 2026, **look no further than the Mobile Parks and Recreation Department**. No matter your age, interests, or ability, the MPRD Team has something perfect planned for you this winter.

This Activity Guide is your companion to the season ahead — a full look at the hundreds of programs, events and experiences MPRD has curated for Mobilians from January through April. Inside you'll find **an impressive variety of classes, clinics, lessons, events and programs covering everything** from hand drums and pickleball to Zumba and Crocheting. We're excited about what's coming up in 2026, and we can't wait to see you in one of our parks or community centers soon.

Over the last several years, **the City of Mobile has invested millions of dollars into our parks system** to create new amenities, better facilities and opportunities for residents in every neighborhood to enjoy one of our parks, community centers or public spaces. At the same time, Senior Director of Parks and Recreation Kim Carmody and the entire MPRD team have been focused on expanding the programming that MPRD offers at the dozens of facilities it maintains across the community.

We are still offering unrivaled recreational sports, clinics and programs, but MPRD is also creating opportunities for Mobilians get engaged mentally through programs like STREAM (Science, Technology, Recreation, Engineering, Arts, and Math) and the many activities led by our Breakthrough Teen Mentors.

One of the best things about the MPRD team is **its commitment to creating something anyone and everyone can enjoy**, which is why they've also increased programming for seniors and brought a certified therapeutics specialist on to the staff to grow our offerings for children and adults with adaptive needs.

At the heart of all MPRD's programs is an incredible team and a group of programmatic partners. Together, they're giving thousands of Mobilians the opportunity to play, grow and learn together. Whether you're a regular visitor or you've never been to one of our parks, this is the perfect season to come see what's new. This Activity Guide will help you find something that speaks to you.

Improving the quality of life for Mobilians is at the heart of everything we do — and **we're proud of the incredible work MPRD does every day to help us achieve that goal.** I hope you'll join us throughout the coming season and let the MPRD Team show you what we have to offer.

Thanks and God Bless,

Mayor Spiro Cheriogotis

30 DAY FITNESS CALENDAR

NEW YEAR. NEW GOALS. NEW YOU!

Let MPRD help you meet all of your New Year's fitness goals! This 30-day calendar highlights a variety of fitness classes happening weekly at our community centers, along with a wide selection of self-led workouts you can enjoy at our beautiful city parks.

SUNDAY

FOCUS ON YOUR BREATH

Find a quiet place to sit comfortably. Focus on the sensation of each breath as you inhale and exhale. If your mind wanders, gently guide your attention back to your breathing.

PRACTICE SINGLE-TASKING

Instead of multitasking, choose one activity and focus on it completely. This could be washing dishes, drinking tea, or eating a meal.

MINDFUL MOVEMENT

Pay attention to the physical sensations of movement, whether you are walking, doing yoga, or stretching. Notice how your body feels in each position or with each step.

BODY SCAN MEDITATION

Lie down or sit comfortably. Bring your attention to different parts of your body, one at a time, from your toes to the top of your head. Notice any sensations without trying to change them.

DISCONNECT FROM TECH

Set aside specific times to take a break from your devices. This break helps reduce stress and allows your mind to be present without the constant stimulation from screens.
